

SECTION 18 - CHARTERS

- A. Charters known before the completion of sequence construction will be built into sequences at a crew base in accordance with Hours of Service, Section 11, and will be governed by the rules applicable to sequences at a crew base. Such charter shall be known as a "Base Charter." All Base Charters shall be identified as a charter in the bid package and open time.
- B. Charters not built into sequences at the time of line construction shall be designated as open time flying within a crew base.
- C. As an exception to Paragraph A and B, when a Charter client requests a specific Flight Attendant crew, the Company will attempt to honor such request. Such exceptions shall not exceed ten percent (10%) of all charters and the Company will adhere to the "No Discrimination" provision of General, Section 37.A. Contractual language set forth in Hours of Service, Section 11, may be modified subject to Charter requirements, but in no case will the Company exceed the FARs.
