

- vi. The RAP(s) for which the Reserve is available.
5. ASG Indicator
- a. Each Reserve assigned to a sequence will be credited with an ASG code. Such code will be credited to a Reserve once for each calendar day assigned by Daily Scheduling, except:
 - i. Aggressive Reserves assigned to a sequence by Daily Scheduling shall not be credited with an ASG code for such assignment.
 - ii. After receiving the ASG credit the Reserve is unable to report for the assigned sequence.
 - b. The ASG code will be applied during the month in which the assigned sequence originates.

L. CALLING OUT OF TIME

The monthly maximum for Reserves will be consistent with the monthly maximum established for Lineholders in each base. A Reserve will not be required to accept an assignment that would result in her/him exceeding the monthly maximum. A Reserve shall not be required to be on call once she/he has reached the monthly maximum less the value of a minimum day and will be released from any obligation to remain on call for the remainder of the month. At the time of processing, Crew Schedule will allow a Reserve to ROC or to accept the sequence and exceed the monthly maximum or at Crew Schedule's discretion, split a sequence to allow a Reserve to reach the monthly maximum. As specified in Paragraph K.4.b, pay and credit hours awarded or assigned while in Aggressive Reserve status shall not be credited when determining if the Reserve has met or exceeded the monthly cap.

M. PRIORITY OF ASSIGNMENT

The intent of this section is to provide an orderly process for covering all sequences and Standby shifts which remain open after future or daily processing. The priority of assignment will be as follows:

- 1. Out-of-base Reserves, in accordance with inverse seniority, avoiding conflicts with Golden Days and vacation days and, when possible, with Flex Days. An out-of-base Reserve so assigned may choose which sequence she/he will be assigned if more than one sequence remains open at the time of assignment.
- 2. A Reserve on a RAP who was previously assigned a sequence by Daily may be reassigned according to Paragraph K.2.f, and Scheduling, Sections 10.J.4 and 10.J.5.
 - a. Reserves will be assigned in the following manner:
 - i. Awarding the earliest departure to the least senior Reserve whose previously assigned sequence reports at 1200 HBT or later and who is available to fly the sequence in its entirety; or
 - ii. If no Reserve is available to take the sequence in its entirety without creating a conflict with her/his Flex Days, the sequence will be assigned in inverse seniority order such that disruption of Flex Days is minimized.
 - b. A previously assigned unreleased available for duty Reserve who previously volunteered to take an assignment on RSV day(s) that continues into her/his Flex Day(s)
