

SABRE) in lieu of her/his crew base. If granted, the commuter will be provided with positive space travel on the next available flight on either American Airlines or on a carrier whose inventory is controlled by the Company. Positive space travel will be limited to one (1) segment within the forty-eight (48) contiguous states, unless the trip sequence includes more than one (1) deadhead segment at termination. In no case will the positive space travel exceed the number of segments returning to base. For International flights, positive space travel will be limited to one (1) leg back to the contiguous forty-eight (48) states.

4. A Flight Attendant who would like to change her/his terminating deadhead segment to a different co-terminal airport should contact Crew Schedule to make such a request at the conclusion of the last working segment. Legalities and pay will be based on the originally scheduled deadhead. A Flight Attendant who voluntarily requests to change the co-terminal of origination or termination will not be entitled to transportation; however, local agreements regarding transportation may apply.
5. A Flight Attendant scheduled to work the last segment of her/his trip sequence may trade with a Flight Attendant scheduled to deadhead on such flight, provided the Flight Attendants notify Crew Schedule, and the flight will not take a delay to accomplish such change. Each Flight Attendant accepting the trade must be legal to accept such flight assignment. The Flight Attendant who was originally scheduled to work the flight will be paid as if she/he had worked such flight.

- I. A Flight Attendant who elects to take an on-line flight other than her/his scheduled deadhead flight shall travel on a space-available basis.

J. SURFACE TRANSPORTATION

1. Except as provided in Paragraph J.2, a Flight Attendant required by the Company to surface deadhead between airports shall receive pay and credit for travel time in accordance with Paragraph A, which shall be determined by dividing the American Automobile Association miles between the applicable airports by forty (40). A Flight Attendant may request additional pay in cases of extraordinary delays during surface deadheads by submitting a pay exception form. However, in no instance will a Flight Attendant be credited with less time than a pilot for the same airport combination. Surface deadhead means:
 - a. Company required ground transportation of a Flight Attendant between two (2) airports without an intervening layover;
 - b. Company required ground transportation of a Flight Attendant between a hotel and an airport that is more than fifty (50) American Automobile Association miles apart; or
 - c. Company required ground transportation of a Flight Attendant between a hotel and an airport when the Flight Attendant flies into one airport and out of another.
2. A Flight Attendant required by the Company to surface deadhead between airports which are included in the Ground Transportation Chart below shall be paid and credited as provided in the chart and such times shall be used for purposes of duty time calculations. The Company shall meet and confer with the Union regarding the applicable flight time credit for travel between airports in the same metropolitan area which are not included in the Chart. If the parties are unable to agree to the pay and credit, the matter shall be submitted to Expedited Arbitration pursuant to System Board of Adjustment, Section 31, for a determination. The arbitrator's award shall govern any travel being grieved and all future instances of travel between the two (2) airports. However, in no instance will Flight Attendants be credited with less time than pilots for the same airport combination.
