

How to read the Bid Summary

Definitions & Key Terms

Line Average (Actual and Requested)

The average credit hours projected for lines of flying in a particular bid month. This value is determined by manpower planning for each base and is set base in PBS **prior** to the bid run. It is displayed on the message board of your dashboard tab. After the PBS run the actual time is displayed in the summary.

Reserve (Final and Open)

Open displays how many reserves were anticipated for the month. Final is the actual number of reserves.

High / Low Lines

Number of hours that were awarded below 70 hrs and above 90 hours.

Vacation Low

Flight Attendants who had at least 7 days of vacation, who are eligible to bid low (40-69 hrs) and were given priority for a low credit line.

Last awarded low with VL (vacation low) lists the line and employee number.

Constraints: Min/ Max

Min displays the line # / and employee # of the Flight Attendant whose seniority and below was awarded above the minimum stated hours.

Max displays the line #/ employee # of the Flight Attendant whose seniority and below was not awarded above the stated number of hours.

Awards

Statistics for the month bid awards.
